The purchaser agrees to the above by purchasing these products. If you do not agree to these terms, please call us promptly to return your products for a full refund.

Solar Lighting

by

Underwater Fish Light

DokLites serve the conventional purposes of piling cap as well as create a beautiful ambient light on your dock.

Solar Piling Caps also ensure your dock is visible to boaters at night so you can rest assured your dock is safer from any unwanted collisions.

Guide Post Lites

Ensure your boat is safe and centered with Guide Post Lites. They install in minutes, and run automatically from dusk to dawn.

They give off a "glow" effect. This allows them to be seen from far distances, but not be blinding as you get closer.

**Available Colors:
Blue · White**

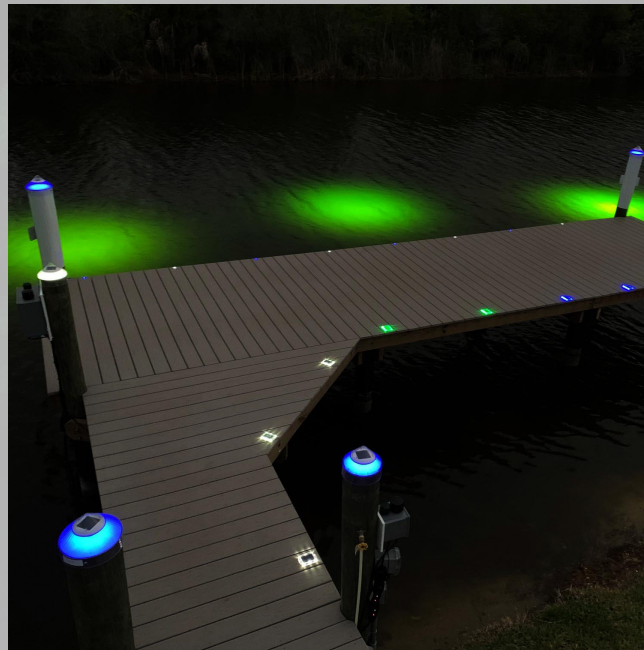

Pathway Lighting

Our Dock Blocks and Dock Spots are a great way to light the path to your dock as well as the edges.

At night, it can be difficult to see the edge of your dock. It can also be much too easy to walk right off! With these easy to install path lights, you can enjoy your evening on the dock with a little peace of mind.

**Available Colors:
Blue · Green · White**

DokLamp

DokLamps are great portable lights that you can place anywhere you like. Similar to the Guide Post Lites, they give off the same glow effect that will give you light, but won't be blinding!

Use it on your fish cleaning table to give you enough light, without the need for wiring. Or, place the DokLamp on any other flat surface!

**Available Colors:
Blue · White**
